FACIAL MASK & PATCH

FACIAL MASK

FACIAL PATCH

01

FELT SHEET MASK

Product Features +

- Environmentally friendly materials such as pulp, tencel, and pure cotton for thin and close adherence to the skin
- Thinly adhered to the skin
- Optimal fabric for low-cost mask packs that quickly deliver effective skin ingredients
- Utilization and development of plant-based fiber materials like Artemisia, etc.
- Printable on rayon and tencel fabrics

Wearing Qualities +

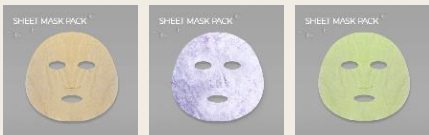

Elasticity

Absorbing Power

Adhesion

Wearing Comfort

Fabric Printing

02

HYDROGEL MASK & PATCH

Product Features +

- Gel form with plentiful moisturizing ingredients for excellent moisturizing and adhesion
- Excellent moisturizing and adhesion
- Water-soluble hydrogel fabric that blocks moisture from evaporating outside the skin and delivers active ingredients
- Capable of manufacturing everything from face gel masks to partial patches

Wearing Qualities +

Elasticity

Absorbing Power

Adhesion

Wearing Comfort

Product Type

05

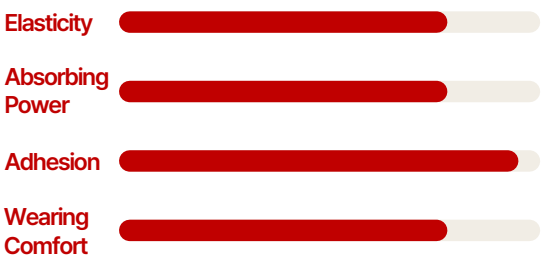

PRINTING SHEET MASK

Product Features +

- A safe fabric with no ink residue on the skin contact surface
- Ensures a high level of adherence to the facial contact area, achieving a perfect fit without any sheet sagging
- The fabric is optimized for heat transfer printing, allowing for various design prints and ensuring high-quality printing

Wearing Qualities +

Various design prints possible

(Material Rayon / Tencel)

06

MELTING COLLAGEN MASK

Product Features +

- Ultra-low-molecular-weight collagen sheet prevents ingredient loss and evaporation, ensuring complete skin absorption
- Patented Nano Technology wraps skin epidermal cells completely, efficiently delivering ingredients to the dermal layer
- Easy to use with immediate results and provides exceptional moisture

Wearing Qualities +

Sheets for the different parts

STEP 01

Apply mist or ampoule to the application area

STEP 02

Attach the patch sheet after removing the transparent film

STEP 03

After spraying mist, gently tap after removing the white mesh

07

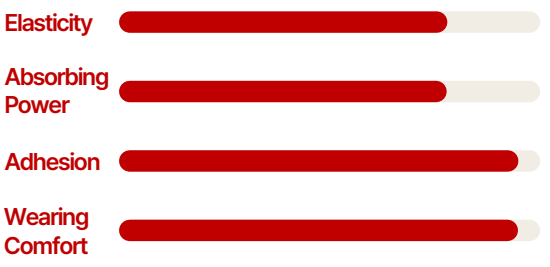

SLICE SHEET MASK

Product Features +

- Convenient and hygienic with excellent adherence, perfect for various areas requiring nutrition
- Enhances adhesion to the facial contact surface, ensuring a wrinkle-free and perfect fit
- Fabric optimized for heat transfer printing, leaving zero ink residue, making it ideal for sublimation transfer printing
- Enables diverse design prints and high-quality printing

Wearing Qualities +

Various design prints possible

(Material Rayon / Tencel)

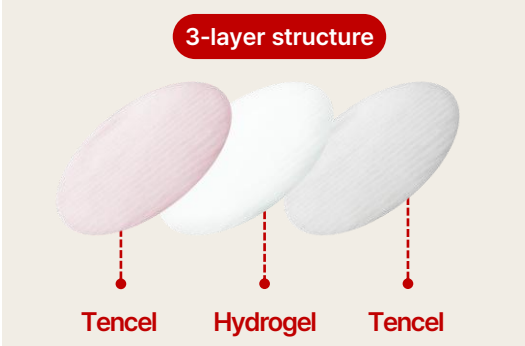

08

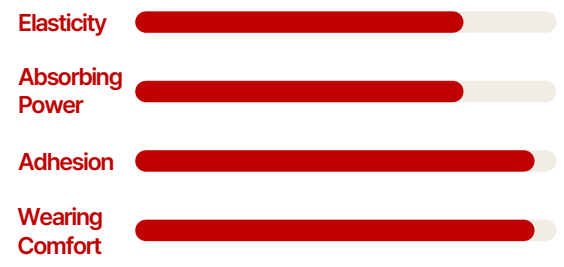

HYDROGEL MASK & PATCH

Product Features +

- Skin Gel with a 3-layer structure adheres to the skin with essence
- 100% Tencel sheet wraps the hydrogel, providing a moist and soft wearing sensation
- Provides simultaneous effects of skin moisturization, soothing, and improvement of sensitive skin
- Contains locust bean gum to soften rough skin and aid in moisturizing

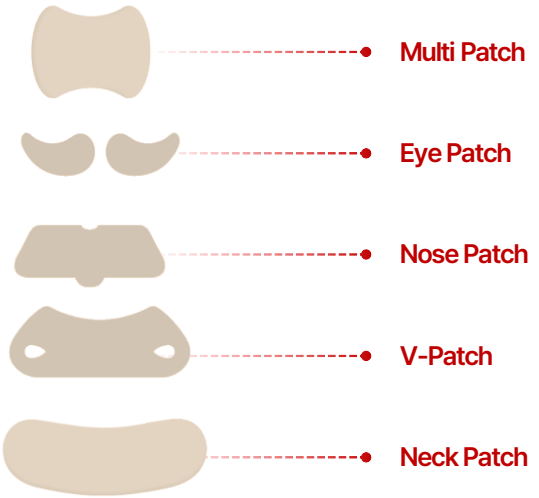

Wearing Qualities +

09

FACE FACIAL PATCH

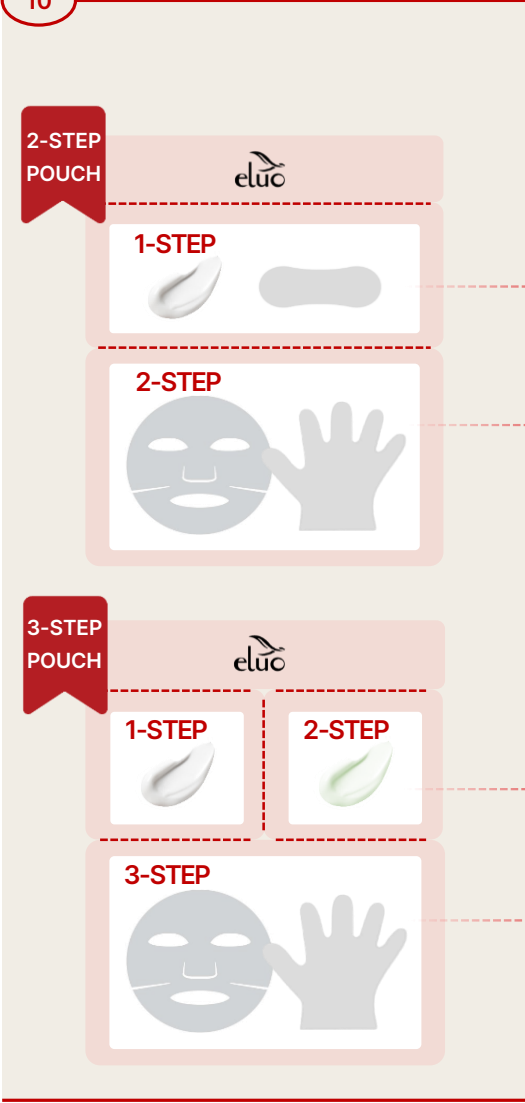

Wearing Qualities +

- Face patches attached to various areas of the face
- Various materials, including hydrogel, bio-cellulose, non-woven fabric sheet, cream sheet, etc.
- High-adhesion fabric ensures effective absorption of essence into the skin
- Effects of moisturizing, nutrition, etc., last up to 24 hours

Sheet / UV block / Cream / Gel, etc., can be developed in various materials

10

N-STEP MASK

- 1-STEP**
Various essences or materials, etc., can be acquired and filled
- 2-STEP**
Various facial / body masks, etc., can be acquired and filled

- 1-STEP 2-STEP**
3~5g capacity for various types of filling
- 3-STEP**
Various facial / body masks, etc., can be acquired and filled

11

Tissue

Pouch

Pad

Small Package

LARGE CAPACITY MASK

Product Features +

- Large capacity mask pack that allows customization of fabric and essence according to customer needs
- Large-capacity customized packaging such as various packaging type.
- Various custom development styles for body and facial use possible

☑ A variety of essences, fabrics, etc. are available and filled.

☑ Available for obtaining and filling various fabrics such as facial/body masks

☑ Packaging can be customized, including various containers and fabric quantities.

SPECIAL SKIN CARE

Various concept products, including UV-blocking sun care items and specialized care products for specific areas, can be produced

Sun Care

Product Features

- High UV protection with SPF 50+ and PA++++
- Has a smooth cream texture
- Provides a fresh finish without white cast or stickiness
- Enriched with 7 types of hyaluronic acid for moisturization
- Customizable with desired concept ingredients, colors, and types

Special Cream / Eye Cream

Product Features

- Specialized care effects for specific areas such as eyes, forehead, and laugh lines
- Supplies nutrition with highly concentrated effective ingredients
- Quick absorption with a firm texture

SPECIAL SKIN CARE

Development and production of various concept products tailored to customer needs as the No.1 face mask packs

Sleeping Pack

Product Features

- Intensive skin care for moisture, skin texture, and transparency all night long
- Effect of maintaining clear and moist skin until morning
- Soft texture that is quickly absorbed without leaving any residue on the pillow

Modeling Pack

Product Features

- Intensive layering care without gaps
- Rapid cooling and calming effect on irritated skin
- A type of pack that has a sticky and moist formula that holds the shape well without running down

Wash-off Pack

Product Features

- Simple pore care including exfoliation, blackheads, and whiteheads
- Cleansing effect for clear and smooth skin
- Hypoallergenic pack that can be used on sensitive skin as well

Lifting Pack

Product Features

- Intensive care for facial outline and skin elasticity
- Excellent lifting and 3D effects
- Functional pack utilizing functional new materials

Peel-Off Pack

Product Features

- The cream formulation forms a collagen cream film for close, intensive care
- Excellent moisturizing and lifting effect
- Peel-off type pack that does not need to be washed
